# Felipe Lindner de Figueiredo

Web developer

Curitiba, Paraná, Brazil

## Summary

- I developed projects using React, TypeScript, Git, Webpack, REST APIs and Jest;
- Good knowledge on HTML, CSS and JavaScript's main resources;
- Recently enrolled in my second graduation: System Analysis and Development;
- Currently taking The Odin Project's Full Stack JavaScript path;

Other courses:

- Databases: Introduction to MongoDB, at MongoDB University;
- Agile Methodologies: Scrum Basics (Scrum Básico - para TODOS), at Udemy;
- Machine Learning: completed the first part of Stanford's Supervised Machine Learning course on Coursera before choosing to pursue Web Development, but I intend to resume it after I'm better established as a Developer.

I am a 34 year old brazilian living in Curitiba, currently undergoing a career transition and seeking opportunities in the field of Web Development. I hold a degree in Mechanical Engineering from UTFPR with experience in the automotive sector. However, I've worked in various unrelated fields in recent years. I was the co-owner of an artisan bakery, but I decided to switch careers, and since late 2022, I've been studying Web Development.
